

ALWALEED ALOTAIBI

Business Analyst | ECBA Certified

0504518061 | Alwaleedalotaibi71@gmail.com | [LinkedIn](#) | [Project Portfolio](#)

PROFESSIONAL SUMMARY

ECBA-certified Business Analyst with a bachelor's degree in management information systems. Elicits and documents business requirements, maps current- and future-state processes, and writes BRDs, Use Cases, and Acceptance Criteria. Queries data with SQL and builds Power BI and Tableau dashboards. Works in Jira and Confluence.

CORE SKILLS

Business Analysis: Requirements Elicitation, Business Process Modeling, Gap Analysis, BRD and Use Case Documentation, User Stories, Data Flow Diagrams

Data & Analytics: SQL (MySQL), Relational Database Design, Power BI, Tableau, Advanced Excel (PivotTables, Advanced Formulas), KPI Tracking

Tools: Jira, Confluence, Microsoft Office Suite (Word, Excel, PowerPoint)

Professional: Stakeholder Communication, Critical Thinking, Problem-Solving, Cross-Functional Collaboration. Arabic (Native), English (Professional)

PORTFOLIO PROJECTS

Used Cars Market Analysis | Power BI

- Built a dashboard on 5,159 Saudi used-car listings from a public dataset, with slicers, KPI cards, a regional sales map, and a price-by-year trend.
- Modeled 1 fact table and 6 dimension tables. Wrote 4 DAX measures and 2 calculated columns.

Financial Analysis Dashboard | Power BI

- Built a financial dashboard on a star-schema model with Time Intelligence and multiple table relationships.
- Delivered period-over-period variance analysis and tracked KPIs for executive financial reporting.

Contact Center KPI Dashboard | Power BI

- Built an executive dashboard for AHT, FCR, and CSAT covering 189 operational conversations.
- Added geographic visuals and weekly trends that show regional bottlenecks and peak demand periods.

Inbound Ticketing System | Business Analyst & Requirements Assistant

- Wrote the BRD for the full system scope, modeled As-Is workflows, and created detailed Use Cases for user-system interactions.

Sanad System | Graduation Project, Taibah University

- Elicited business requirements, tracked tasks in Jira, and designed the system's relational database models.

WORK EXPERIENCE

Customer Service Agent, Upsource by Solutions

Feb 2024 – Present

- Analyzed and resolved internet and billing inquiries in an SLA-driven environment.
- Recorded recurring issue patterns and reported them to help improve processes.
- Worked with internal teams on system behavior and turned customer-reported issues into follow-up tasks.

Management Information Systems Trainee, Municipality of Al-Muwayh

Aug 2023 – Oct 2023

- Gathered and wrote up system requirements, mapped financial data flows, and designed logical relational database schemas.
- Wrote technical documentation including Use Cases, and recommended data-driven fixes for operational bottlenecks.
