

ALWALEED ALOTAIBI

Business Analyst | ECBA Certified

0504518061 | Alwaleedalotaibi71@gmail.com | [LinkedIn](#) | [Project Portfolio](#)

PROFESSIONAL SUMMARY

ECBA-certified Business Analyst with a Bachelor's degree in Management Information Systems and hands-on experience gathering, analyzing, and documenting business and functional requirements. Skilled in facilitating requirements workshops, mapping current- and future-state processes, and developing BRDs, Use Cases, and Acceptance Criteria to bridge business and technical teams. Practical experience with Jira and Confluence, relational database design, and Power BI reporting and dashboard development. Strong analytical thinker and communicator, fluent in Arabic and English, with a structured, detail-oriented approach to business analysis.

CORE SKILLS

- Business Analysis: Requirements Elicitation, Business Process Modeling, Process Analysis, Gap Analysis, BRD/Use Case Documentation, User Stories, Data Flow Diagrams
- Data & Analytics: Data Analysis, Relational Database Design, KPI Tracking, Advanced Excel (PivotTables, Advanced Formulas), Power BI Reporting
- Tools: Jira, Confluence, Power BI, Microsoft Office Suite (Word, Excel, PowerPoint)
- Professional: Stakeholder Communication, Critical Thinking, Problem-Solving, Cross-Functional Collaboration, Time Management, Fluent Arabic & English

WORK EXPERIENCE

Customer Service Agent, Upsource by Solutions

Feb 2024 – Present

- Analyzed and resolved customer inquiries related to internet services and billing within a structured, SLA-driven operational environment.
- Documented recurring issue patterns and communicated findings to support process improvement initiatives.
- Coordinated with internal teams to clarify system behavior and translate customer-reported issues into actionable follow-ups.

Management Information Systems Trainee, Municipality of Al-Muwayh

Aug 2023 – Oct 2023

- Gathered and documented system requirements, mapping financial data flows to improve internal reporting processes.
- Designed logical relational database schemas and authored technical documentation, including system Use Cases.
- Evaluated existing software tools to identify operational bottlenecks and recommended data-driven solutions to management.

PROJECTS

Inbound Ticketing System — Business Analyst & Requirements Assistant

- Authored the Business Requirements Document (BRD) defining full system scope and objectives.
- Modeled As-Is business workflows to analyze current processes and identify improvement areas.
- Created detailed Use Cases mapping system-user interactions across the platform.
- Designed the information architecture and page structure of the ticketing system platform.

Sanad System — Graduation Project, Taibah University

Business Analyst & Requirements Assistant

- Elicited business requirements and tracked project tasks and progress using Jira.
- Analyzed business processes and designed relational database models to support system functionality.

Contact Center KPI Dashboard — Power BI

- Designed an executive KPI dashboard tracking AHT, FCR, and CSAT across 189 operational conversations.
- Built interactive geographic visualizations and weekly trend analysis to identify regional bottlenecks and peak demand periods.

Financial Analysis Dashboard — Power BI

- Built a financial/accounting dashboard using a star-schema data model with Time Intelligence and multiple table relationships.
- Delivered period-over-period variance analysis and KPI tracking for executive-level financial reporting.
